

proClaim Investor Pitch

Project Overview:

- Next.js 14 app with tRPC and Prisma
- Blockchain utilities in packages/proclaim
- Cron jobs sync on-chain state

Updated Investor Plan:

1. Switch to a dedicated backend service
2. Redesign and audit blockchain contracts
3. Harden infrastructure and run end-to-end tests

Team & Timeline:

- Lead engineer/architect
- Backend engineers (2)
- Frontend developer
- Blockchain engineer
- DevOps and QA
- 6-8 month effort

Cost Estimate (Warsaw):

- Average 25-30k PLN per person per month
- 7-8 people for eight months
- Approximately 1.6-1.9M PLN (400k-470k USD)
